MERCURY
TP-702

always
exceeds
your
expectations

Speed
65 up to straps
per minute

Value talks.
Mercury TP-702 is a world-class high-speed automatic strapping machine. The innovative features and superior performance give Mercury TP-702 a voice to speak for itself. It offers you the maximum value with the minimum cost. — So little to pay and yet so much to get.

AUTOMATIC
STRAPPING MACHINE

Mercury

Innovative World-class Model

TP-702

always exceeds
your expectations

Mercury TP-702 is an innovative world-class high-speed automatic strapping machine. It is suitable for 5, 6, 9, or 12mm P.P. strap. It equips with all industry's standard features and several creative user friendly designs. Mercury TP-702 offers the most optimal performance, highest speed, easiest maintenance and the most cost effective solution in its class today.

Main Features

Robust & Compact Mechanical Strapping Head

The Mercury TP-702 uses the latest DC brushless motor technology to provide the highest level of accuracy and reliability on the market. All motors are German-made.

The strapping head has no belts, clutches or pulleys. It is designed with up-to-date technology with few moving parts. With 30% fewer parts, Mercury requires fewer adjustments, has fewer wear components, and requires less maintenance. The simple design of Mercury minimizes the maintenance cost.

Free Access to Strap Guides (patents registered)

Hinged top plate makes easy access to the strapping head for quick maintenance. Unblock the guides enabling free and quick access to the strap guides without use of any tools. The most maintenance-friendly design.

Waist-High Auto Strap Feeding

Friendly design to feed the strap automatically from the upper side of the coil without the need to access to the bottom of the machine.

Waist-High Quick Coil Change (patents registered)

Innovative waist-high coil change without access to the bottom of the machine. Quick release lock eliminates downtime to change the coil. Ergonomic and quick change design makes coil change simpler than ever.

Ergonomic Cycle Initiation

- **Turnable Operating Control Panel ①**
The operating control panel is located on upper side of the machine for easy access. User friendly. Power cord located at the top of arch makes the machine very safe to operate and avoid wire damage while moving the machine.

- **Front Foot-Bar Switch ②**
Ergonomic design and user friendly.

Options

- Photo-Eye Switch
- Rear Foot Bar Switch
- Max. tension up to 45 kg (for 9mm)
- Lower Adjustable Table Height (770-820 mm) for TP-702P
- Stainless Steel Frame (TP-702S)

More Features

Dispenser Release Switch

Friendly design makes it easier to pull the strap from the strap dispenser for waist-high auto strap feeding.

Sensor Controlled Heater

The fast heating mechanism is sensor controlled assuring consistent and high efficiency seals.

Low Voltage

All DC motors and heater are "stepped down" to 24V to increase the safety of the machine.

Strap End Ejector

Eject end of strap from the inlet of strap feeding. Easier to clean the end of strap and get the machine ready for next coil of strap.

Auto Strap Ejector

Loop-eject clears unwanted strap automatically if the machine is accidentally operated without a package. Eliminate downtime.

Adjustable Table Height

The table height is adjustable to any height between 820 mm and 920 mm.

Mercury Family

TP-702P

With Dual Pneumatic Press

Mercury TP-702P (with dual press) is ideal to strap compressible material such as corrugated papers, paper sheets, plastic sheets, bags...etc.

Dual Pneumatic Press

Offer better product stability and containment.

TP-702RS

For Small or Round Package

Mercury TP-702RS is suitable for small or round packages of plastic pipes, steel rod, hardwood...etc. It can strap packages as small as 40 mm(W) x 10 mm(H) or round package as small as Ø 32 mm x 2 pieces. The TP-702RS strapping machine provides reliable, high speed performance for small or round package applications.

Arch Size: 550 mm(W) x 400 mm(H)

Package Sizes

Package size Strap width	Min.	Max.
5/6 mm	□ 40 mm(W) x 10 mm(H) ○ Pipe Ø 32 mm x 2pcs	500 mm(W) x 350 mm(H)
9 mm	□ 50 mm(W) x 10 mm(H) ○ Pipe Ø 34 mm x 2pcs
